

PROFESSIONAL RECORD

DANNY LEJEUNE

Vice President of Ecology

Education:

B.S. Biology
University of Central
Florida, 2003

Years Experience: 4

PROFESSIONAL EXPERIENCE SUMMARY

Mr. LeJeune has been involved in the environmental field for over four years. **He is experienced in coordinating efforts on complex projects which involve state, federal, and local agencies and issues related to wetlands and wildlife.** While attending the University of Central Florida, he worked as a marine ecology research assistant for Dr. Linda Walters. His experience included assisting with field research on various marine ecology topics as well as conducting his own research in St. Johns County Florida.

Mr. LeJeune also assisted in the development of a sea turtle and Florida beach mouse Habitat Conservation Plan for St. Johns County Florida.

RESPONSIBILITIES WITH NATURAL RESOURCE CONSULTANTS, LLC

As Vice President of Ecology, Mr. LeJeune's responsibilities include managing other scientists and technicians, and coordinating efforts on multiple complex projects. Specifically he is experienced in wetland jurisdictional determinations for state and federal agencies, wetland permitting, compensatory mitigation planning, agency coordination, determinations of wetland ecological values, vegetative community characterizations, wildlife surveys, endangered and threatened species assessments, water quality sampling, erosion control inspections and public agency contact. He manages single-family and commercial development projects. He is experienced in permitting for dock and bulkhead construction. Mr. LeJeune also aids in the training of new personnel.
